OSNOVNA ŠKOLA

NOVI BEOGRAD

SAVREMENE AVANTURE

SAVREMENA OSNOVNA ŠKOLA

Pozdravna reč v. d. direktora škole

Jedan mudar čovek je rekao: „Svaki učitelj je nekada bio učenik. Svaki ekspert je nekada bio početnik.“ Na tom putu, putu učenja, obrazovanja i promene sa velikim zadovoljstvom stojimo i mi, nastavnici i saradnici Osnovne škole „Savremena“.

Dobro došli u Osnovnu školu „Savremena“, u kojoj sa velikom pažnjom stvaramo prve akademske uspehe naših budućih stručnjaka, naučnika, umetnika i sportista. Naša misija je da učenicima približimo najvrednija znanja i veštine korišćenjem savremenih metoda i oblika rada, da razvijamo kreativnost i radoznalost u procesu učenja i pozitivnu klimu između svih učesnika u školskom životu. Praćenjem svetskih praksi u obrazovanju, orijentisani smo ka kontinuiranim inovacijama u nastavnom radu, što smo dokazali i uvođenjem prvog humanoidnog robota i veštačke inteligencije u obrazovno-vaspitni proces, ali i inovativnih programa koji našim učenicima obezbeđuju unapređenje kako akademskih, tako i socioemocionalnih, digitalnih i drugih veština značajnih za život. Kao deo i najmlađi član LINK edu alijanse, nosimo iskustvo u negovanju talenata i podsticanju uspeha kod naših učenika u akademskom, ali i vannastavnom radu.

Svesni smo važnosti ličnog rasta i razvoja svakog učenika, kao i saradnje kao pokretača napretka. Zato podstičemo odgovornost prema sebi, drugima i svojoj okolini. Podržavamo svakog učenika na njegovom akademskom putu, uz obogaćivanje njihovih učeničkih portfolija različitim nastavnim i vannastavnim aktivnostima, projektima, takmičenjima i programima, kako bismo ih iz škole ispratili kao samosvesne, samostalne i odgovorne ljude. Savremeni nastavnici odlikuju se istrajnošću i motivacijom kako bi svakodnevno podsticali interdisciplinarno povezivanje znanja, razvoj kritičkog razmišljanja i rasuđivanja, kreativnost u rešavanju problema, empatiju, etičnost u odlukama i koncept celoživotnog učenja.

Na našem putu ka zajedničkom cilju koji se ogleda u beskompromisnom kvalitetu obrazovanja i vaspitanja, najveću podršku vidimo upravo u roditeljima – našim strateškim partnerima i saradnicima. Posebno mi je zadovoljstvo što ste nam upravo vi ukazali poverenje da kroz učenje, zabavu, kreativne zadatke i inovacije u obrazovanju stvaramo prilike za bolju i uspešniju budućnost vaše dece, zbog čega verujem da smo taj zajednički cilj već uveliko ostvarili.

Milena Tarbuk,
vršilac dužnosti direktora Osnovne škole „Savremena“

OLA – STVARNO DRUGAČIJA

Welcoming speech of the Acting Principal

A wise man once said: Every teacher was once a student. Every expert was once a beginner. We, the teachers and associates of Primary School Savremena, stand with great pleasure on that path, the path of learning, education and change.

Welcome to Primary School Savremena, where we carefully create the first academic successes of our future experts, scientists, artists and athletes. Our mission is to bring the most valuable knowledge and skills to students using modern methods and ways of work, to develop creativity and curiosity in the learning process and a positive atmosphere among all participants in school life. By following world practices in education, we are oriented towards continuous innovations in teaching, which we have proven by introducing the first humanoid robot and artificial intelligence into the educational process, as well as innovative programmes that provide our students with improvement, both academically and socio-emotionally, digital and other skills essential for life. As a part and the youngest member of the LINK edu Alliance, we have experience in nurturing talents and encouraging the success of our students in academic and extracurricular work.

We are aware of the importance of personal growth and development of each student, as well as cooperation as a driver of progress, and that's why we encourage responsibility towards ourselves, others and our environment. We support each student on their academic journey, enriching their student portfolios with various curricular and extracurricular activities, projects, competitions and programmes, in order for them to leave school as self-aware, independent and responsible people. Teachers at Savremena are characterised by perseverance and motivation in order to constantly encourage interdisciplinary learning, development of critical thinking and reasoning, creativity in solving problems, empathy, ethics in making decisions and the concept of lifelong learning.

On our way to a common goal, which is reflected in the uncompromising quality of education and upbringing, we see the greatest support in the parents – our strategic partners and associates. I am especially pleased that it was you who trusted us to create opportunities for a better and more successful future for your children through learning, entertainment, creative tasks and innovations in education, which is why I believe that we have already largely achieved that common goal.

Milena Tarbuk

Acting Principal of Primary School Savremena

SVEČANA I TOPLA DOBRODOŠLICA ZA NOVE GENERACIJE UČENIKA I NJIHOVE RODITELJE

📅 1. 9. 2022.

Svečani prijem povodom početka nove školske godine doneo je uzbuđenje i radost zbog ponovnog susreta i novog početka. Bilo je mnogo emocija, jer učenike, uz nova poznanstva, čekaju i nove avanture i životne lekcije.

LIFE SKILLS PROGRAM

Life Skills program je jedan od mnogih sadržaja koji našu školu čine jedinstvenom i stvarno drugačijom. Kroz ovaj program učenici usvajaju praktična znanja i vještine iz najrazličitijih oblasti života koji će im biti neophodni u budućnosti bez obzira na to čime će se baviti.

The Life Skills Programme is just one of many things that make our school unique and truly different. Through this programme, students acquire practical knowledge and skills from various areas of life that they will need in the future, regardless of what career they choose to pursue.

„THINGS YOU WILL NEVER LEARN IN SCHOOL”: SEPTEMBAR SMO ZAPOČELI BRIGOM O ZDRAVLJU

📅 20. 9. 2022.

Septembar su obeležile prve radionice iz oblasti brige o zdravlju, tako da smo imali priliku da naučimo kako da brinemo o svom zdravlju i kako da se hranimo zdravo.
